## Extra-CURRICULAR ACTIVITIES

Organized Youth vibe. Aug '23

## PROJECTS

Music website (11/2022 - 12/2022) A website made using HTML, CSS and JavaScript. It includes 1). Pop music 2). Rock music 3). Hip Hop music 4). Classical music 5) Jazz music 6). Folk music and many more.

Python Project (11/2022 - 12/2022) The task is to create a script that generates a random number between a fixed range, and if the user guesses the number right in three chances, then user wins otherwise user lose. This game user can play as many numbers of times and whenever user wins a score is to be given to the user. At the end the users score must be displayed on the screen.

AGE CALCULATOR (09/2022 - 11/2022) making age calculator using "PYTHON" programming language. This project can easily count the age of anything when its birthdate will give.

Ice-cream Parlor Management System (04/2023 - 05/2023) Through this project user can manage the different types of ice-creams. User will first create the database for ice creams and then after that certain operations can be performed depending upon the requirement of user.

Weather Website by HTML and CSS.
